S.E. (Electronics & Computer Engineering)
PRINCIPLES OF PROGRAMMING LANGUAGE
(2019 Pattern) (Semester - IV) (204206)

Time : 2½ Hours]

[Max. Marks : 70

Instructions to the candidates :

- 1) Solve Q.1 or Q.2, Q.3 or Q.4, Q.5 or Q.6, Q.7 and Q.8.
- 2) Figures to the right side indicate full marks.
- 3) Assume suitable data if necessary.

- Q1) a)** Explain the key features of procedure oriented programming language.[8]
b) Explain in detail about 1. Software design method 2. Encapsulation.[10]

OR

- Q2) a)** Explain the Pascal's features for programming in the large. [8]
b) Explain the concept of generic data structure with templates example in C++.[10]

- Q3) a)** Explain in detail why Java is platform independent programming language? [8]
b) Explain in detail about one dimensional array in Java with programming example for creating one dimensional array at five elements. [9]

OR

- Q4) a)** Explain use of switch statement in Java with suitable examples. [8]
b) Explain use of declaring loop control variables inside the for loop in Java with example. [9]

- Q5) a)** Explain about command line arguments in Java with suitable example.[8]
b) Explain concept of extending interface in Java with suitable example.[10]

P.T.O.

OR

- Q6)** a) How to create object for class in Java, explain with suitable example. [8]
b) Explain about access protection in Java with Suitable example for anyone access specifier. [10]

- Q7)** a) Write applet program to display "Hello World" in Java. [8]
b) Write a program for use of multiple catch blocks in Java. [9]

OR

- Q8)** a) Compare any eight differences between Java applet and Java application program. [8]
b) Explain in detail about reading console input in Java with suitable example for scanner class. [9]
