**S.E. (Electronics & Computer Engineering) (Insem)
SYSTEM PROGRAMMING & OPERATING SYSTEMS
(2019 Pattern) (Semester - IV) (204207)**

Time : 1 Hour]

[Max. Marks : 30

Instructions to the candidates:

- 1) Answer Q.1 or Q.2, Q.3 or Q.4.
- 2) Figures to the right indicate full marks.
- 3) Assume suitable data, if necessary.

- Q1) a)** Define assembler. Explain in details four assembly language statements.[7]
- b) Explain the term language processing activity in system programming briefly. Explain the different language processing activity. [8]

OR

- Q2) a)** What is compiler? Explain in details phases of language of language processing. [7]
- b) Define Macro. Explain macro assembler and macro pre-processor. Differentiate between macro and procedure. [8]

- Q3) a)** Explain different phases of compiler with a suitable example. [7]
- b) What is the code optimization? Explain any two code optimization technique with suitable example. [8]

OR

- Q4) a)** What is loader? Explain compile and go loader with suitable diagram.[7]
- b) What is the Linker? Explain static and dynamic linking. What is the difference between Linker and Loader? [8]
